

Colour vision deficiency experiment in VR

Age and sex: _____

The researchers perform a colour vision deficiency “colour blindness” test with you. ☐

Fill this questionnaire

1= strongly disagree, 2= slightly disagree, 3= slightly agree, 4 = strongly agree

	1	2	3	4
I sometimes find it hard to see things from the “other guy’s” point of view.				
I am usually objective when I watch a film or play, and I don’t get completely caught up with it.				
I try to look at everybody’s side of a disagreement before I make a decision.				
I sometimes try to understand my friends better by imagining how things look from their perspective.				
When I am upset at someone, I usually try to “put myself in his shoes” for a while				
Before criticizing somebody, I try to imagine how I would feel if I was in their place				
I often get emotionally involved with my friends’ problems.				
I am inclined to get nervous when others around me seem to be nervous.				
People I am with have a strong influence on my mood.				
It affects me very much when one of my friends seems upset.				
I often get deeply involved with the feelings of a character in a film, play, or novel.				
I get very upset when I see someone cry.				
I am happy when I am with a cheerful group and sad when the others are glum.				
It worries me when others are worrying and panicky.				
I can easily tell if someone else wants to enter a conversation.				
I can pick up quickly if someone says one thing but means another.				
It is hard for me to see why some things upset people so much.				
I find it easy to put myself in somebody else’s shoes.				
I am good at predicting how someone will feel.				
I am quick to spot when someone in a group is feeling awkward or uncomfortable.				
Other people tell me I am good at understanding how they are feeling and what they are				
I can easily tell if someone else is interested or bored with what I am saying.				
Friends talk to me about their problems as they say that I am very understanding.				
I can sense if I am intruding, even if the other person does not tell me.				
I can easily work out what another person might want to talk about.				
I can tell if someone is masking their true emotion.				
I am good at predicting what someone will do.				
I can usually appreciate the other person’s viewpoint, even if I do not agree with it.				
I usually stay emotionally detached when watching a film.				
I always try to consider the other fellow’s feelings before I do something.				
Before I do something I try to consider how my friends will react to it.				

What are the 5 most important issues in the life of people suffering with colour vision deficiencies?
